

## **1. Tell about yourself & please emphasize on your educational and professional journey.**

It's my pleasure to introduce myself to you...My name is Chinmay Kumar Jena. I am 29 years old. I come from Soro, Balasore, Odisha. I pursued my matriculation in 2009 where I achieved first division. Following that, I completed my 10+2 in the science stream in 2011 with a score of 57.66%. After my basic educations, I pursued a diploma in Mechanical Engineering and graduated in 2013 with first class.

In terms of my professional journey, I began my career with Piaggio Vehicles Private Limited in 2013 as a trainee engineer. Following that, I joined Amphenol Interconnect India Private Limited in 2015 as a vocational trainee, gaining exposure to different aspects of the industry. Subsequently, I served as an engineer in the manufacturing department at ASB International Private Limited from March 2016 to April 2021, contributing to various projects and enhancing my skills.

Currently, I am managing my own retail medicine store, a business I started in April 2021. Simultaneously, I am pursuing a degree in Zoology Honours, showcasing my commitment to continuous learning and personal development. Additionally, I have embarked on a journey into *Fullstack web development*, aiming to diversify my skill set.

My educational and professional experiences have instilled in me a strong work ethic, adaptability, and a passion for both science and technology. I am confident that my background equips me with the skills necessary for *Fullstack web developer* role and I am eager to bring my unique blend of experiences to contribute to your company's success.

## **2. Why do you want to apply for this role?**

I am eager to apply for the *Fullstack Web Developer* role at your company because it perfectly aligns with my passion for creating innovative and user-centric web applications. Having embarked on a journey to become proficient in *Fullstack development*, I find that the dynamic nature of this role perfectly complements my skill set and ambitions.

Through my experiences in mechanical engineering and retail entrepreneurship, I have developed a diverse skill set that includes problem-solving, attention to detail, and the ability to adapt to new challenges. These skills, combined with my recent pursuit of Fullstack web development, have equipped me to contribute effectively to your team.

I am excited about the opportunity to leverage my skills in both front-end and back-end development to contribute to the success of your projects and be part of a team that values creativity and innovation.

Moreover, I am impressed by the company's reputation for fostering professional growth, and I am eager to further develop my Fullstack skills while contributing meaningfully to the exciting work your team is doing. I am confident that my background, skills, and enthusiasm make me a strong fit for this role, and I am excited about the possibility of contributing to the success of your team.

### **3. What are your professional goals 5 years from now?**

In the next 5 years, my primary professional goal is to continue growing as a *Fullstack Web Developer*, honing my skills in both front-end and back-end technologies. I aspire to be a key contributor to innovative projects that not only advance my technical proficiency but also contribute significantly to the success and growth of the company.

I see myself taking on more leadership responsibilities, possibly in a senior developer or team lead role, where I can be mentor and guide junior developers. I believe in fostering a collaborative and supportive work environment, and I want to contribute to building a strong, high-performing development team.

Additionally, I am keen on staying abreast of emerging technologies and industry trends. I aim to actively participate in workshops, conferences, and continuous learning initiatives to ensure that I remain at the forefront of web development practices. I see myself being a go-to person for adopting new technologies and methodologies within the team.

Ultimately, my goal is not only personal and professional development but also to make a meaningful impact on the projects I'm involved in and contribute to the overall success and reputation of the company.

### **4. Why do you think you are the correct candidate for this role?**

I believe I am the right candidate for this *Fullstack Web Developer* role because of the blend of technical skills, hands on project experience, and a passion for innovation that I bring to the table.

Firstly, my hands-on project experience in both front-end and back-end development, coupled with my ongoing pursuit of a Fullstack web development certification, positions me as someone with a well-rounded understanding of the entire development process. This not only aligns with the requirements of the role but also ensures that I can contribute effectively to various aspects of your projects.

Having successfully managed a retail medicine store, I developed a keen eye for user experience and a deep appreciation for the impact that well-designed web applications can have on customer engagement. This unique perspective, coupled with my engineering background, sets me apart from other candidates.

Lastly, I am deeply enthusiastic about the projects at your Company and believe that my technical skills, combined with my commitment to continuous learning and adaptability, make me a strong fit for the dynamic and innovative environment that your company fosters.

### **5. What are your salary expectations?**

While salary is important to me, I am more focused on finding the right fit for both myself and this company. I am confident that with my skills and hands on practical experience in *Fullstack web development*, I can bring substantial value to your team.

I would appreciate it if you could provide a salary range for this position, as it would help me better understand the parameters. My primary goal is to ensure that the compensation is fair and commensurate with the responsibilities and expectations of the role. I am open to discussion and negotiation and I am confident that we can reach an agreement that is mutually beneficial.
